

CSI Overview & Introduction of different T-Codes
Mohd Samran Siddiqui, ASP (RAKNPA)
9997875724

Features of CSI

- Centralized network – integrated operations for transactions.
- HO-SO-BO accounting network removed – each office is independent.
- Online monitoring of office transactions possible from DO/RO/CO/DAP/Directorate.
- MIS of transactions available – known as Business Intelligence Reports.
- SSO (single sign on) – ensures access to various applications through one login
- CRM – Customer relations management system (creation of new customers and administering) including creation and administration of customer contracts
- Inventory procurement and supply system
- Budget management

Features of CSI

- Identification of all DOP entities as Cost Centre, Profit Centre and Fund Centre
- Each employee assigned to a particular cost centre
- When a transaction is an expenditure, the PO will accept the transaction for Cost Centre
- When a transaction is Income , it will be accepted for Profit Centre
- Automation of document creation
- Introduction of Accrual Accounting
- Previous 15 Digits Account Heads have been replaced by 10 Digit GL Codes in CSI for every activity

Features of CSI

- CSI provides centralized user management. Every employee carries an employee ID.
- Every PO has a facility ID and every post, a Post ID
- Centralized & consolidates data and provides various reports instantly
- Audits access and transaction details for preventive vigilance and security tracking
- Employee information and transactions – Employee can get personal data and apply for leave/advances through ESS (employee self service) portal
- Supports for issues through Service desk management system

Accrual System of Accounting

- Till now , we were following Cash Based Accounting. Revenue is recognised when it is Received. So , in case of BNPL , Revenue is recognised when it is actually received. Expenditure is recognised at the time of actual expenditure.
- However , in Accrual System of Accounting , Revenue or Expenditure is recognised when it is accrued. For example, BNPL income is recognised when the Service is provided.
- Double Entry System – Debit and Credit

Challenges in new application

- Double entry accounting system not understood by most of the staff – resulting in incorrect accounting
- Mccamish is still not integrated – Voucher posting being done to incorporate transactions
- Network instability affects performance – Transactions could not be performed on many days due to network failure, Current bandwidth is also an issue.
- Certain defects in the applications affecting operations—being resolved in consultation with TCS

Changes in CSI impacting inspection

- Relation between HO, SO and BO do not exist for accounting purpose.
- Post offices are identified with facility ID for general use, with profit centre ID for cash transactions, cost centre ID for posting expenses and fund centre ID for budget transactions.
- Stamp balance does not form part of the balance of an office. It is categorized as inventory till sale occurs.
- Remittances in transit are not held as part of the balance of remitting office.
- EOD is prescribed for POS and every postman in DPMS; there is no EOD for F&A.
- Transactions can be corrected at any time before the close of the period.
- POS is offline and syncs with central server at an interval of 4 minutes.
- Other modules are online

Double Entry system of book keeping.

Personal Account

- Debit the receiver.
- Credit the giver.

Real Account

- Debit what comes in.
- Credit what goes out.

Nominal Account

- Debit all expenses and losses.
- Credit all income and gains.

Sl No	Scenario	Dr/Cr	GL	GL Description	Amount
1	Payment of office expenses	Dr	3*****	Office Expenses	1000
		Cr	4867100010	DOP Cash	1000
2	SB Deposit in cash	Dr	4867100011	POS Cash	5000
		Cr	8*****	SB Deposit	5000
3	Cash transfer from counter to treasury	Dr	4867100010	DOP Cash	5000
		Cr	4867100011	POS Cash	5000
4	Cash sent from HO to SO	Dr	4867100010	DOP Cash (SO)	1,00,000
		Cr	4867100010	DOP Cash (HO)	1,00,000
5	Advance deposit by contractual customer	Dr	4867100010	DOP/POS Cash	5,00,000
		Cr	*****	Customer ID	5,00,000
	Article booked by the same customer	Dr	*****	Customer ID	50,000
		Cr	1*****	Revenue Account	50,000
6	Article booked by the BNPL customer	Dr	*****	Customer ID	1,00,000
		Cr	1*****	Revenue Account	1,00,000
	Cash deposited by BNPL customer	Dr	4867100010	DOP Cash	1,00,000
		Cr	*****	Customer ID	1,00,000

Salient Features of CSI

- ❖ Facility ID- Each and every office is identified as a facility and will have a 13 digit Facility ID. It is an alphanumeric number.
- ❖ If Facility ID Prefixed with DV it is Division, Prefixed with HO it is HO, Prefixed with PO it is SO, Prefixed with BO It is BO.

Facility Description	Facility ID
UP Circle	CR300000000000
Agra Region	RN301000000000
Agra Division	DV301010000000
Agra HO	HO301012000000
SO	PO3010
BO	BO3010

Salient Features of CSI

Profit/Cost/Fund Centre:

In CSI environment, the Post Office is classified in to three type of Centres-

- **Profit Centre: Any income received in the office will be reflected in profit center**
- **Cost Centre: Any expenditure incurred in the office will be reflected in cost center**
- **Fund Centre: The office which estimates the budget.**

Note: Profit center & Cost center are one and the same for the Post Office. If the PO earns revenue then it is Profit Centre and if it incurs expenditure then it is Cost Centre.

Unique ID assigned to Post Office with 10 digits:

For example – Agra HO - Profit/Cost Center ID is 30-1-19-2-00-00 - **3011920000**

30	–	Circle code-UP Circle
1	–	Region-Agra Region
19	–	Divisional Office-Agra Divison
2	–	Head Post office-Agra HO
00	–	Sub Post office- Name of SO
00	–	Branch office -Name of the BO

PERIODS

- The months in the financial year April to March are numbered as 1 to 12

April - 1
May - 2
June - 3
July - 4
August - 5
Sept - 6
October - 7
Nov - 8
Dec - 9
Jan - 10
Feb - 11
March - 12

Salient Features of CSI

❖ For movement of Stock :

HO will be called as Plant, Treasurer (TR01), Counters (CS01) will be a storage location, SO/BO will be a storage

❖ General Ledger (GL) Code:-

The existing head of accounts is replaced with 10 digit SAP GL Code.

GL Accounts	GL Starts with
Revenue Accounts	1*
Expense Accounts	3*
Cash/Bank Accounts	4*
Assets Accounts	5*
Schemes Accounts (Receipt Side)	8*
Schemes Accounts (Payment Side)	4*

Document Types (Mostly Used)

	Description	Doc Type	Description
SA	G/L Account Document (for G/L to G/L Posting)	SK	Cash Document
KA	Vendor Document	KG	Vendor Credit Memo
KR	Vendor Invoice	KZ	Vendor Payment
AB	Clearing/Reversal Entries	DA	Customer Document
DG	Customer Credit Memo	DR	Customer Invoice
DZ	Customer Payment	CR	Cash Request
DB	Drawing from Bank	BR	Remittance to Bank
PB	Postal Bank (Finacle Transactions)	PL	Postal Life Insurance (McCamish Transactions)

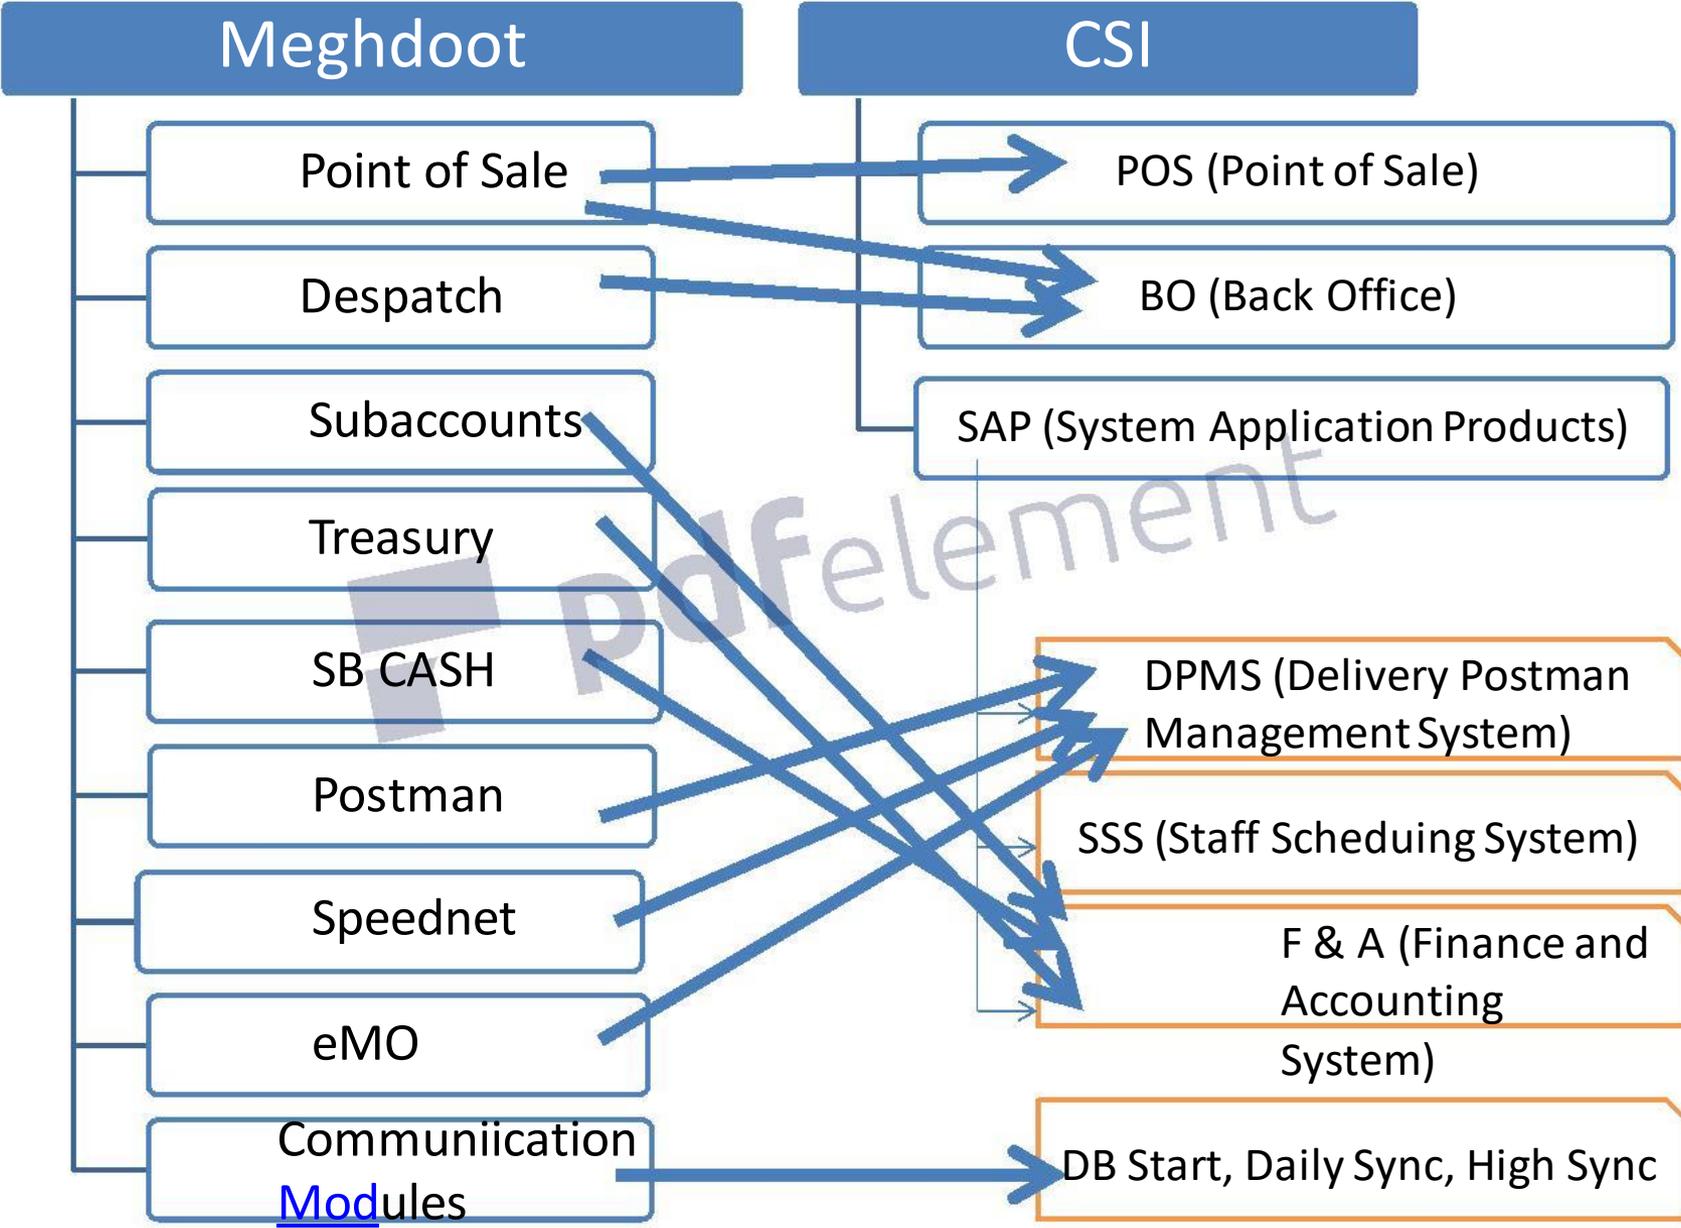

Salient Features of CSI

Posting Keys

P Key	Description	P Key	Description
40	Debit Entry	50	Credit Entry
25	Vendor Debit	31	Vendor Credit
1	Customer Debit	11	Customer Credit
70	Asset Debit	75	Asset Credit
38	Credit Memo		

- All the operations performed by the supervisor role in all Meghdooth modules is consolidated and performed in one single module called Back office in CSI.
- Back office module plays a major role for Supervisors and treasurers.
- For supervisors- counter assignment, verification and account submission.
- For Treasurers- cash allocation to counters and inventory movement.
- Another major role in back office is IPVS(India Post Visibility System)- which includes despatch of counter booking and return articles.
- All kinds of operational reports for any date can be generated.

- PO BEGIN
- COUNTER ALLOCATION**
- RECEIVE CASH FROM F&A
- RECEIVE IPO, STAMP & STATIONARY FROM F&A
- SEND CASH TO F&A
- SUPPLY VIEW
- SUPPLY TO COUNTER
- ISSUE CHEQUE
- CHEQUE REMITTANCE
- CHEQUE REQUEST
- SUPERVISOR APPROVAL
- MONEY ORDER APPROVAL
- PO ACCOUNT SUBMISSION
- FORCE SHIFT END SUMMARY
- FREQUENTLY USED ADDRESS
- DELEGATE
- DISCONNECTED OFFICE
- PO END

Help Desk Numi

2 Cash

There are two types of communication with central server

1. High Sync: All transactional data and data related to passwords are exchanged once in every 4 minutes.
2. Daily Sync: One time in a day. Inventory data, schedule data, license data, master etc are exchanged between server and local system

SYNCHRONIZATIONS DASHBOARD

<https://digitization.indiapost.gov.in/OnlineDashboard>

- Similar to Meghdooth Point of Sale Module.
- Offline application for booking transactions.
- Synchronize with central server every 4 mins.
- Common platform for all types of counter transactions including POSB Finacle and PLI macamish. (online mode)
- Miscellaneous transactions like franking machine , Epost , Philately, Postbox renewal are included in POS.

- Manages transactions like promotion, transfer etc.,
- Facilitates establishment review and includes vigilance module

Identity Management Portal is an Portal used to Manage the Roles and Password of employees in Department of Posts. Identity management provides an integrated method of managing users and their access to applications, including:

- Provisioning and de-provisioning
- Assignment of privileges through roles
- Password Management
- Self-service options such that users can manage their own accounts

Open Self-Service Portal (Identity Management) URL

- a. Type the URL <http://im.indiapost.gov.in/identity> in browser.
- b. Login with Employee ID and default password conveyed to user

General Users:

- 1. Password Management.
- 2. Forgotten Password
- 3. Set and Change Security Question and answers

Role Delegation Authority:

- 1. Additional Facility Access
- 2. Additional Facility Hierarchy Access
- 3. Additional Facility Above Hierarchy Access
- 4. POS Role Assignment
- 5. SAP Role Assignment
- 6. Reset User Password
- 7. Unlock User Accounts
- 8. Enable User
- 9. De-Provisioning/Disable User

Procedure to change CSI user Id Password in IM Portal India Post

Follow the below procedure step by step to change CSI Password in IM Portal.

First, open IM portal India Post in Sify network

- IM portal link: <https://im.indiapost.gov.in/identity/> (This link only opens in Sify network of post offices)
- Enter your current CSI user Id and Password to log in.
- Click on Change SSO password.
- Type new password in set new password column.
- Type the same password in confirms password column.
- Click on the submit button.
- Wait for 30-35 minute

Now the Business Intelligence Reports is made accessible through Open Internet and can be accessed with the URL: <https://bi.indiapost.gov.in/BOE/BI>

This tool is useful to know the performance of any post office. BI tool generates MNOP report of Speed Post, Registered letter, etc. After reviewing of MNOP report generate by the BI Tool of the post office, Dop users can increase the performance of their post office. So this tool is very important for any post office.

As per the decision BI access is being provided to,

- All AD(Mails) of Circle Office.
- two persons (APMG/ASP/IP/Officials handling with mails) from all regions.
- All Divisional Heads across the country. (SSP/SP/SSRM/SRM)
- All officers above the rank of Divisional Head.

BI access will be provided by CEPT

SAP BusinessObjects

BI launch pad

Enter your user information, and click "Log On".
If you are unsure of your account information, contact your system administrator.

- Delivery and Postmen Management System(DPMS) – As name suggests, module includes Mail operations done at Post offices similar to Meghdooth Postman Module.
- Web based Online module for receiving bags, invoicing articles and returns from Beat/BO.
- eMO printing and payments, including redirection are done in this module.
- COD / VPP / VPL Articles will be handled solely by this module till the processing of payment.
